

1. Record Nr.	UNINA9910254989403321
Titolo	Advances in Service-Oriented and Cloud Computing : Workshops of ESOCC 2015, Taormina, Italy, September 15-17, 2015, Revised Selected Papers // edited by Antonio Celesti, Philipp Leitner
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-33313-5
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (XV, 454 p. 174 illus.)
Collana	Communications in Computer and Information Science, , 1865-0929 ; ; 567
Disciplina	005.1
Soggetti	Software engineering Computer communication systems Information technology Business—Data processing Application software Software Engineering Computer Communication Networks IT in Business Information Systems Applications (incl. Internet)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Limits and /or advantages of existing cloud solutions -- Future Internet technologies -- Efficient and adaptive deployment and management of service-based applications across multiple clouds -- Novel cloud service migration practices and solutions -- Digitization of enterprises in the cloud computing era -- Federated cloud networking services.
Sommario/riassunto	This volume contains the technical papers presented in the seven high-quality workshops associated with the European Conference on Service-Oriented and Cloud Computing, ESOCC 2015, held in Taormina, Italy, in September 2015: Third International Workshop on Cloud for IoT (CLIoT 2015), 5th International Workshop on Adaptive Services for the Future Internet (WAS4FI 2015), Second Workshop on Seamless Adaptive Multi-cloud Management of Service-Based

Applications (SeaClouds 2015), First International Workshop on Cloud Adoption and Migration (CloudWay 2015), First International Workshop on Digital Enterprise Architecture and Engineering (IDEA 2015), First Workshop on Federated Cloud Networking (FedCloudNet 2015). Abstracts of the presentations held at the European Projects Forum (EU Projects 2015) are included in the back matter of this volume. The 25 full papers and 6 short papers were carefully reviewed and selected from 48 submissions. They focus on specific topics in service-oriented and cloud computing domains such as limits and /or advantages of existing cloud solutions, Future Internet technologies, efficient and adaptive deployment and management of service-based applications across multiple clouds, novel cloud service migration practices and solutions, digitization of enterprises in the cloud computing era, federated cloud networking services.
