Sommario/riassunto	This book offers an authoritative study on special economic zones in China. With articles from economic experts and scholars, the scope of the book includes new theories, methods and discoveries in the field of special economic zone studies. It focuses on discussing recent advances in the area, including research on current industrial upgrade and transformation, the development patterns of special economic zones, innovation construction and special-economic-zone system innovation. It offers a valuable data source for economics

undergraduates and postgraduates, economics researchers at social science institutions and government officials.
