Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	An Introduction -- Sino-Mexican Economic and Trade Relations -- Economic Policies in China and Mexico -- AD Use in Mexico -- Data and Methodology -- Opportunities for Sino-Mexican Economic Cooperation -- Challenges and Policy Suggestions for Sino-Mexican Relations.
Sommario/riassunto	This book undertakes two main tasks. First, it provides an overview of Sino-Mexican trade and economic relations since the normalization of diplomatic relations in the 1980s. Second, it presents a re-evaluation of Mexico's trade policies with China, from the import substitution industrialization (ISI) period in the early 1990s to the strengthening of economic and trade relations in recent years. Both aspects are addressed within a unified framework by documenting historical events and conducting empirical analyses throughout Mexico's economic development, which has been characterized by both growth and stagnation. The book analyzes the Sino-Mexican trade conflicts and cooperation by examining cases of antidumping (AD) and flows of international trade, and by addressing the current obstacles.
