Sommario/riassunto	This book covers numerous areas and aspects of Chinese domestic and external politics and policies, the Chinese economy, Chinese society and culture, and Chinese literature and history. It is divided into four sections, the first of which focuses on China's place in world politics, including its relations with the European Union, Russia, India, Japan, the United States, and Africa. The second section among others

addresses issues and areas related to China's role in and impact on the international economy, the strategies and positioning of Chinese multinational companies investing in Europe, the problems and challenges of China's banking and financial systems and China's foreign economic strategies. The final two sections are devoted to Chinese politics and society, and Italian views on Chinese culture, language, and literature. The volume is multidisciplinary in nature, with contributions from experts of politics, economics, history, law, literature, gender studies, and the media. It will appeal to a wide range of China scholars and analysts as well as to all who have an interest in international relations, Chinese politics, the Chinese economy, and Chinese society, culture, literature, and history.
