Sommario/riassunto	This book provides a historical evaluation of banking reforms and structural changes in India over the past 25 years. Chapters cover issues in consolidation and restructuring, competition and concentration, performance evaluation in terms of cost efficiency and productivity, profitability, non-performing assets and technology use. The authors use specific regression models to measure the impact of these reforms on bank performance during this period and assess whether or not the consolidation phase is now complete. This volume will be of interest to researchers and academicians interested in the financial history of Indian Banking reforms.
