Sommario/riassunto

This book describes specific problems and proposes solutions for different areas of finance in Central and Southeastern European countries. Covering a broad spectrum of topics, from monetary economics and electronic money to capital markets, banking and insurance, it comprises theoretical and empirical contributions by authors from nine countries - Poland, Slovakia, Croatia, Bosnia and Herzegovina, Romania, Bulgaria, Montenegro, Serbia and Greece. Intended for academics as well as policy makers and practitioners it offers new perspectives on Central and Southeastern European finance research.
