Rational Choice and Merit Complementarity -- 7. Circularity Issues -- 8. Evaluating Cognitive Significance -- 9. Epistemic Evaluation -- 10. Allocating Scientific Credit -- 11. Evaluating Contention Tenacity.
Sommario/riassunto	This book is a survey of key issues in the theory of evaluation aimed at exhibiting and clarifying the rational nature of the thought-procedures involved. By means of theoretical analysis and explanatory case studies, this volume shows how evaluation is—or should be—a rational procedure directed at appropriate objectives. Above all, it maintains the objectivity of rational evaluation.
