Sommario/riassunto

This book focuses on multiculturalism, racism and the interests of nonhuman animals. Each are, in their own right, rapidly growing and controversial fields of enquiry, but how do multiculturalism and racism intersect with the debate concerning animals and their interests? This a deceptively simple question but one that is becoming ever more pressing as we examine our societal practices in a pluralistic world. Collating the work of a diverse group of academics from across the world, the book includes writing on a wide range of subjects and addressing contemporary issues in this critical arena. Subjects covered include multiculturalism, group rights and the limits of tolerance; ethnocentrism and animals; racism and discrimination and non-Western alternatives to animal rights and welfare. The book will be of interest to researchers, lecturers and advanced students as well as range of social justice organisations, government institutions, animal activist organisations and environmental groups.
