Sommario/riassunto

This book offers a normative reconceptualization of a modern Islamic governed state. First, Joseph Kaminski surveys the historical context of the trajectory of Islamic thought, and offers a unique discursive framework for reconceptualizing an Islamic governed state that rejects secular Enlightenment liberalism and instead is heavily grounded in Ancient Greek ideals of politics and political leadership. Despite heavily borrowing from Greek thought, the model offered remains firmly rooted in a Shari'ah-based, discursive ontological framework. The volume explores topics of bureaucracy, law, democracy, women in politics, and economic justice. Further, this volume presents case studies from Turkey, Egypt, Tunisia, and Malaysia, and utilizes the presented theoretical framework as a lens for analysis. .

Das Bismarck-Problem im Spiegel internationaler Biographien Wer war Otto von Bismarck? Für seinen Zeitgenossen Theodor Fontane die »interessanteste Figur«, die er kannte; für einen klugen Beobachter unserer Tage wie Henry A. Kissinger »die dominante Figur der zweiten Hälfte des 19. Jahrhunderts«. Die Auseinandersetzung mit der faszinierenden, komplizierten, ambivalenten Persönlichkeit des Eisernen Kanzlers ist auch 200 Jahre nach seiner Geburt keineswegs beendet. Wie stark seine Politik und Person mittlerweile in ein neues Licht gerückt worden sind, lässt sich kaum besser ermessen, als an den Bismarck-Biographien der letzten vier Jahrzehnte. Anhand ausgewählter Kapitel dieser Lebensbeschreibungen dokumentiert die vorliegende Anthologie die in Teilen bereits historisch gewordene Debatte und öffnet den Zugang zu der aktuellen Diskussion der internationalen Historiographie über ein zentrales Problem der jüngeren deutschen Geschichte.
