Autore	Brodsky, Marc H.
Titolo	Amorphous semiconductors / edited by M.H. Brodsky ; with contributions by M.H. Brodsky ... [et al.]
Pubbl/distr/stampa	Berlin [etc.] : Springer-Verlag, 1985
ISBN	3-540-16008-6
Edizione	[2nd ed.]
Collana	Topics in Applied Physics ; 36
Disciplina	537.622
Locazione	FI1
Collocazione	30-078
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	With 181 Figures.

2. Record Nr.	UNISA996418268703316
Autore	Rosenbaum Paul R
Titolo	Design of observational studies [[electronic resource] /] / by Paul R. Rosenbaum
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-46405-9
Edizione	[2nd ed. 2020.]
Descrizione fisica	1 online resource (XXVII, 547 p. 34 illus.)
Collana	Springer Series in Statistics, , 0172-7397
Disciplina	001.434
Soggetti	Statistics Probabilities Econometrics Biostatistics Psychology—Methodology Psychological measurement Social sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part I Beginnings -- 1 Dilemmas and Craftsmanship -- 2 Causal Inference in Randomized Experiments -- 3 Two Simple Models for Observational Studies -- 4 Competing Theories Structure Design -- 5 Opportunities, Devices, and Instruments -- 6 Transparency -- 7 Some Counterclaims Undermine Themselves -- Part II Matching -- 8 A Matched Observational Study -- 9 Basic Tools of Multivariate Matching -- 10 Various Practical Issues in Matching -- 11 Fine Balance -- 12 Matching Without Groups -- 13 Risk-Set Matching -- 14 Matching in R -- Part III Design Sensitivity -- 15 The Power of a Sensitivity Analysis and Its Limit -- 16 Heterogeneity and Causality -- 17 Uncommon but Dramatic Responses to Treatment -- 18 Anticipated and Discovered Patterns of Response -- 19 Choice of Test Statistic -- Part IV Enhanced Design -- 20 Evidence Factors -- 21 Constructing Several Comparison Groups -- Part V Planning Analysis -- 22 After Matching, Before Analysis -- 23 Planning the Analysis -- Summary: Key Elements of Design -- Solutions to Common Problems -- Symbols -- Acronyms --

Sommario/riassunto

This second edition of Design of Observational Studies is both an introduction to statistical inference in observational studies and a detailed discussion of the principles that guide the design of observational studies. An observational study is an empiric investigation of effects caused by treatments when randomized experimentation is unethical or infeasible. Observational studies are common in most fields that study the effects of treatments on people, including medicine, economics, epidemiology, education, psychology, political science and sociology. The quality and strength of evidence provided by an observational study is determined largely by its design. Design of Observational Studies is organized into five parts. Chapters 2, 3, and 5 of Part I cover concisely many of the ideas discussed in Rosenbaum's Observational Studies (also published by Springer) but in a less technical fashion. Part II discusses the practical aspects of using propensity scores and other tools to create a matched comparison that balances many covariates, and includes an updated chapter on matching in R. In Part III, the concept of design sensitivity is used to appraise the relative ability of competing designs to distinguish treatment effects from biases due to unmeasured covariates. Part IV is new to this edition; it discusses evidence factors and the computerized construction of more than one comparison group. Part V discusses planning the analysis of an observational study, with particular reference to Sir Ronald Fisher's striking advice for observational studies: "make your theories elaborate." This new edition features updated exploration of causal influence, with four new chapters, a new R package DOS2 designed as a companion for the book, and discussion of several of the latest matching packages for R. In particular, DOS2 allows readers to reproduce many analyses from Design of Observational Studies.

Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1. Introduction -- Chapter 2. The Trade Union Crisis of 1976–9 -- Chapter 3. Placing the Thatcher reforms in the context of the Capital/Labour relationship -- Chapter 4. The Banking Crisis of 2007 -- Chapter 5. Conclusions.
Sommario/riassunto	This book explores two recent crises in British political economy: the crisis of 1976–9, for which the trade unions were impugned, and the 2007 economic crisis, for which bankers were (at least initially) blamed. The author argues that the “crisis resolution” of the former – principally the Thatcherite reforms of the 1980s – led to the emergence of the banking crisis. Further, Kirkland demonstrates how narratives of blame have emerged and were used in both instances to promote specific agendas. Narrations of blame and crises were used to curb the trade union powers in the 1980s, whilst the 2007 crisis was quickly reframed as one of excessive government spending, which in turn has led to policies of austerity.
