Sommario/riassunto	This book provides a comprehensive review of relations between China and the EU from the perspectives of politics, economy and culture in order to provide a better understanding of the development of the China-EU Strategic Partnership over the past ten years and to explore

its future direction. It goes on to discuss China-EU relations against the backdrop of global governance, as well as China's relations with some of the EU member states. The final part of the report presents a comparative analysis of China-EU relations and EU-US relations. This book will help readers to better understand the status quo and to predict China-EU relations in the near future.
