| Nota di contenuto | The muzzled rabbi -- From the words of Sabato Morais -- Heroes and villains -- Meant for children -- Rabbi versus rabbi -- Restoration to Palestine -- Rabbis under attack -- The new antisemitism -- The world's parliament of religions -- Building a profession. |
| Sommario/riassunto | What the Rabbis Said examines a relatively unexplored facet of the rich social history of nineteenth-century American Jews. Based on sources that have heretofore been largely neglected, it traces the sermons and other public statements of rabbis, both Traditionalists and Reformers, on a host of matters that engaged the Jewish community before 1900. Reminding the reader of the complexities and diversity that characterized the religious congregations in nineteenth-century America, Cohen offers insight into the primary concerns of both the religious leaders and the laity--full acculturation to Ame |

| Nota di contenuto | Introduction -- Chapter 1: Commodification of the Human Body Parts -- Chapter 2: Transnational Hair Trade -- Chapter 3: Transnational Surrogacy -- Chapter 4: Transnational Kidney Transplant -- Chapter 5: Transnational Attraction of Brains -- Chapter 6: The Commodification of the Human Body Parts in a Development-Related Perspective -- Ending Remarks . |
| Sommario/riassunto | This book proposes the introduction of a development-related perspective to scholarly critique of the human body's commodification. Nahavandi contends that the commodification of human body parts reflects a modern form of such well-known historical phenomena as slavery and colonization, and can be considered a new and additional form of appropriation and extraction of resources from the Global South. What are the commonalities between hair trade, surrogacy, kidney sale and attraction of brains? The author argues that these all characterize a world where increasingly everything can be traded or is considered to be tradeable. A world where, similar to any other goods, body parts have entered the global market either legally or illegally. Through a series of multidisciplinary comparative studies, the book |

explores how forms of commodification of the human body are fuelled by issues of poverty in the Global South, and inequality in transnational relations. .
