Sommario/riassunto

This book brings the Cappadocian Fathers to life and explores their contributions to subsequent Christian thought. Melding together a thematic and individualized approach, the book examines Cappadocian thought in relation to Greek philosophy and the musings of other Christian thinkers of the time. The volume is unique in that it details the Cappadocian legacy upon the three central divisions of Christianity, rather than focusing on one confession. Providing a multifaceted assessment of the spirituality and beliefs of the fourth-century Church, contributors interweave historical studies into their philosophical and theological discussions. The volume draws together an international team of scholars from a variety of academic backgrounds including philosophy, theology, and Classics. The contributors bring their unique perspectives to bear on their analysis of the Cappadocians' theological contributions. Special attention is given to the Cappadocians' influence on pneumatology, Christology, and ethics. The Ecumenical Legacy of the Cappadocians sets the Cappadocians' theoretical views in relief against the political and historical background of their day, enlivening and vivifying the analysis with engaging biographical sketches. .
