

1. Record Nr.	UNINA9910257384203321
Titolo	Proceedings of the Third International Conference on Numerical Methods in Fluid Mechanics [[electronic resource]] : Vol. I General Lectures. Fundamental Numerical Techniques // edited by Henri Cabannes, Roger Temam
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 1973
ISBN	3-540-38377-8
Edizione	[1st ed. 1973.]
Descrizione fisica	1 online resource (VII, 188 p. 11 illus.)
Collana	Lecture Notes in Physics, , 0075-8450 ; ; 18
Disciplina	531
Soggetti	Mechanics Classical Mechanics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Review of methods for solving the Navier-Stokes equations -- Atmospheric dynamics and the numerical simulation of atmospheric circulation -- Methods for (generally unsteady) flows with shocks: A brief survey -- Multi-level adaptive technique (MLAT) for fast numerical solution to boundary value problems -- A comparative study of difference schemes for the solution of -- Approximation des fonctions a divergence nulle par la methode des elements finis -- A numerical procedure for a free boundary value problem in the hodograph plane -- A numerical study of a mildly non-linear partial differential equation -- Numerical experiments with the compressible navier-stokes equations -- An improved constant time technique for the method of characteristics -- Finite difference methods for the steady-state navier-stokes equations -- A predictor-corrector method for three coordinate viscous flows -- Processing and analysis of computation results for multidimensional problems of aerohydrodynamics -- Towards the ultimate conservative difference scheme I. The quest of monotonicity -- Positive conservative second and higher order difference schemes for the equations of fluid dynamics -- Schemas numeriques invariants de groupe pour les equations de la dynamique de gaz.
