

1. Record Nr.	UNINA9910260634503321
Titolo	Logic programming languages : constraints, functions, and objects // edited by K.R. Apt, J.W. de Bakker, and J.J.M.M. Rutten
Pubbl/distr/stampa	Cambridge, Mass., : MIT Press, ©1993
Descrizione fisica	1 online resource (xv, 207 p.)
Collana	Logic programming
Altri autori (Persone)	AptKrzysztof R. <1949-> BakkerJ. W. de <1939-> (Jacobus Willem) RuttenJ. J. M. M
Disciplina	005.13/1
Soggetti	Logic programming languages
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	"This collection of current research on logic programming languages presents results from a three-year, ESPRIT-funded effort to explore the integration of the foundational issues of functional, logic, and object-oriented programming. It offers valuable insights into the fast-developing extensions of logic programming with functions, constraints, concurrency, and objects. Chapters are grouped according to the unifying themes of functional programming, constraint, logic programming, and object-oriented programming."
