Titolo	Einen Anfang finden! : Kurt Georg Kiesinger in der Aussen- und Deutschlandpolitik der Großen Koalition / / Dirk Kroegel
Pubbl/distr/stampa	De Gruyter, 1997 Berlin ; ; Boston : , : Oldenbourg Wissenschaftsverlag, , [2009] ©1996
Edizione	[1st ed.]
Descrizione fisica	1 online resource (363 p.)
Collana	Studien zur Zeitgeschichte ; ; 52
Classificazione	ML 1500
Disciplina	327.43047/09/045
Soggetti	German reunification question (1949-1990) Germany (West) Politics and government Germany (West) Foreign relations
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Front Matter -- Die Gründungsväter und die Entstehung der Großen Koalition -- Kiesinger und die Frankreichpolitik -- Das Bündnis beruht auf einem Mißverständnis - Kiesinger, Wehner und der Versuch einer gemeinsamen Deutschlandpolitik -- Brandts erste vorsichtige Schritte in Richtung Ostpolitik und seine aussichtslose Position gegenüber Kiesinger -- Zäsur im März/April 1968: Die SPD zwingt den Kanzler noch stärker an die Seite seiner Fraktion -- Kurze Rückkehr zum Kalten Krieg - Kleine Berlin-Krise und Ende des Prager Frühlings -- Die Außenpolitik der Großen Koalition unter dem Druck der innenpolitischen Ereignisse -- Back Matter
Sommario/riassunto	Die Bundesrepublik stand nach der festen Westbindung Mitte der sechziger Jahre am Scheideweg: Es ging um die Frage, wie eine Ostpolitik geführt werden konnte, an deren Ende die Wiedervereinigung Deutschlands stehen sollte. In der Großen Koalition verfolgten Kiesinger und Wehner, die beiden Initiatoren dieses Regierungsbündnisses, unterschiedliche Zielsetzungen, die zunächst verdeckt blieben. Für den Kanzler stand das Verhältnis zu Moskau im Mittelpunkt; Wehners Weg zur Einheit führte durch das Brandenburger Tor nach Osten. Die Arbeit beschreibt spannend und detailliert den

Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Foreword -- Preface -- Introduction -- Acknowledgments -- Chapter 1. State-of-the-art -- Chapter 2. Study area, material and methods -- Chapter 3. Taxonomic classification of foraminifera -- Chapter 4. Modern foraminifera -- Chapter 5. Quaternary bio- and ecostratigraphy, with elements of paleogeography of the Ponto-Caspian Corridors -- Chapter 6. Origin and taxonomy of the Pleistocene Ponto-Caspian benthic foraminifera -- Chapter 7. Benthic foraminifera as indicators of environmental change in the Black Sea in space and time -- Chapter 8. Systematic part -- Conclusions -- Index.

This handbook in two volumes offers a heretofore unavailable compilation of detailed information on foraminifera of the Caspian-Black Sea-Mediterranean Corridors ("CORRIDORS"), including their taxonomy, ecology, and applications in the study of Quaternary stratigraphy, paleogeographic reconstruction, and environmental stress. This subject is significant in light of the ongoing debates regarding the Flood Hypotheses because foraminifera can provide more information about many of the disputed questions. Foraminifera are highly reliable paleoenvironmental indicators, ubiquitous in marine environments, and taxonomically diverse, which gives them the potential for a wide range of biological responses to varied environmental factors. Their tests are readily preserved and can record evidence of environmental change through time, thus providing historical baseline data even in the absence of background studies. This book presents taxonomic descriptions for about 500 species and subspecies from the Black Sea, Sea of Azov, Caspian Sea, Aral Sea, Sea of Marmara, and the Eastern Mediterranean. This catalogue is supplemented by ecological remarks, stratigraphic distributions, paleogeography, and environmental/paleoenvironmental applications, including responses to environmental stress, e.g., river discharge, pollution by different contaminants, etc. The book will be useful to specialists in Quaternary history of the "CORRIDORS" as well as those in environmental monitoring and risk assessment. This handbook offers detailed taxonomic descriptions of foraminifera from the Black Sea, Caspian Sea, Sea of Azov, Aral Sea (in Volume 1) and Eastern Mediterranean and Sea of Marmara (in Volume 2). .
