

1. Record Nr.	UNINA9910261138603321
Autore	Frederick Jeffrey Kaskel
Titolo	Nephrotic Syndrome in Pediatric Patients
Pubbl/distr/stampa	Frontiers Media SA, 2017
Descrizione fisica	1 online resource (85 p.)
Collana	Frontiers Research Topics
Soggetti	Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Nephrotic syndrome (NS) - characterized by heavy glomerular protein loss (proteinuria), edema, hypoalbuminemia, and hyperlipidemia - has diverse causes and frequently leads to chronic kidney disease. This E-book encompasses articles on a variety of topics in NS, including a historical perspective on understanding and treatment of NS, followed by state-of-the-art reviews of the molecular pathomechanisms, clinical outcomes, as well as current and emerging treatment strategies for NS. We hope that this comprehensive review will help to reduce the gaps between the research and the day-to-day care of patients with NS and inspire new research efforts towards updating and expanding the treatment armamentarium for the future.
