

1. Record Nr.	UNINA9910263848203321
Autore	Vasquez Patricia I.
Titolo	Oil Sparks in the Amazon : Local Conflicts, Indigenous Populations, and Natural Resources // Patricia I Vasquez
Pubbl/distr/stampa	Baltimore, Maryland : , : Project Muse, , 2013 ©2013
ISBN	0-8203-5304-3 0-8203-4562-8 0-8203-4638-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (210 pages) : illustrations, maps
Collana	Studies in security and international affairs
Classificazione	POL011000BUS070040
Disciplina	333.8/23098
Soggetti	Social conflict - South America Indians of South America - Social conditions Petroleum industry and trade - Environmental aspects - South America Petroleum industry and trade - Social aspects - South America
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (pages [151]-167) and index.
Nota di contenuto	List of illustrations -- Preface -- Introduction -- Tracing oil- and gas-related conflicts -- Indigenous peoples and natural resource development -- Structural causes of local conflicts -- Transient triggers of local conflicts -- Conclusion -- Notes -- Bibliography -- Index.
Sommario/riassunto	For decades, studies of oil-related conflicts have focused on the effects of natural resource mismanagement, resulting in great economic booms and busts or violence as rebels fight ruling governments over their regions' hydrocarbon resources. In Oil Sparks in the Amazon, Patricia I. Vasquez writes that while oil busts and civil wars are common, the tension over oil in the Amazon has played out differently, in a way inextricable from the region itself. Oil disputes in the Amazon primarily involve local indigenous populations. These groups' social and cultural identities differ from the rest of the population, and the diverse disputes over land, displacement, water contamination, jobs, and wealth distribution reflect those differences. Vasquez spent fifteen years traveling to the oil producing regions of Latin America,

conducting hundreds of interviews with the stakeholders in local conflicts. She analyzes fifty-five social and environmental clashes related to oil and gas extraction in the Andean countries (Peru, Ecuador, and Colombia). She also examines what triggers local hydrocarbons disputes and offers policy recommendations to resolve or prevent them. Vasquez argues that each case should be analyzed with attention to its specific sociopolitical and economic context. She shows how the key to preventing disputes that lead to local conflicts is to address structural flaws (such as poor governance and inadequate legal systems) and nonstructural flaws (such as stakeholders' attitudes and behavior) at the outset. Doing this will require more than strong political commitments to ensure the equitable distribution of oil and gas revenues. It will require attention to the local values and culture as well.
