

1. Record Nr.	UNINA9910265256303321
Titolo	IEEE Std 656-2018 (Revision of IEEE Std 656-1992) : IEEE Standard for the Measurement of Audible Noise from Overhead Transmission Lines / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York : , : IEEE, , [2018]
ISBN	1-5044-4511-2
Descrizione fisica	1 online resource (28 pages)
Disciplina	621.319
Soggetti	Electric lines
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Uniform procedures are established for manual and automatic measurement of audible noise from overhead transmission lines. Their purpose is to allow valid evaluation and comparison of the audible noise performance of various overhead lines. Definitions are provided, and instruments are specified. Measurement procedures are set forth, and precautions are given. Supporting data that should accompany the measurement data are specified, and methods for presenting the latter are described.
