Regionalismen und Regionalorganisationen in Globalisierungsprozessen -- 6. Debatten zur Epistemologie und Periodisierung von Regionalorganisationen -- 7. Regionale Praktiken in Afrika -- 8. Zusammenfassung
Sommario/riassunto	Regions have been widely expressed in the sovereignty strategies of concrete actors since the early 19th century; Since the end of the Cold War, they seem to be a favored response to current globalization processes, especially in the Global South. This volume introduces the fragmented knowledge of different disciplines on the topic of regions and regionalization projects.
