

1. Record Nr.	UNINA9910279733503321
Autore	Bunz Mercedes
Titolo	Artificial intelligence and the Internet of Things : UK policy opportunities and challenges // Mercedes Bunz and Laima Janciute
Pubbl/distr/stampa	London : , : University of Westminster Press, , 2018
ISBN	1-911534-82-3
Descrizione fisica	1 online resource (27 p ;ages) : PDF, digital file(s)
Collana	CAMRI policy briefs ; ; Volume 2
Disciplina	518.1
Soggetti	Algorithms Artificial intelligence Internet of things
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	"Through algorithms and artificial intelligence (AI), objects and digital services now demonstrate new skills they did not have before, right up to replacing human activity through pre-programming or by making their own decisions. As part of the internet of things, AI applications are already widely used today, for example in language processing, image recognition and the tracking and processing of data. This policy brief illustrates the potential negative and positive impacts of AI and reviews related policy strategies adopted by the UK, US, EU, as well as Canada and China. Based on an ethical approach that considers the role of AI from a democratic perspective and considering the public interest, the authors make policy recommendations that help to strengthen the positive impact of AI and to mitigate its negative consequences."
