Concerning the Idea of Progress -- The Crisis of Historical Time at the Beginning of the Twentieth Century: An Early Counterpoint Between Benjamin and Heidegger as a Crucial Issue for Thinking Modernity, Globalization and its Historical Space -- A Philosophical Inquiry into the Future as a Category of Historical Time -- Index of Persons

Sommario/riassunto

The aim of the publication is both to provide the debates on globalization with a genuine philosophical perspective by working out its normative dimensions, and to scientifically ground the ethical-philosophical discourse on global responsibility. Other topics addressed are the altering consciousness of space and time, and globalization as a discourse, as an ideology and as a symbolic form.
