	Disciplina	616.075028
	Soggetti	Medical electronics Medical instruments and apparatus - Standards
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Sommario/riassunto	Within the context of the ISO/IEEE 11073 family of standards for point-of-care (PoC)medical device communication, a communication protocol specification for a distributed system of PoC medical devices and medical IT systems that need to exchange data, or safely control networked PoC medical devices by profiling Web Service specifications, is defined by this standard. Additional Web Service specifications are part of this standard.
