Cleanup -- Summary -- Reference Links -- Next Steps -- Chapter 4: Setup and Migration Guide -- Configuring Office 365 -- Step 1: Validate Your Domain(s) to Microsoft -- Step 2: Add Additional Domain Name Service (DNS) Information -- Step 3: Configure Lync -- Step 4: Install PowerShell -- Step 5: Load Users and Assign Licenses -- License Assignment -- Step 6: Migrate E-mail -- Test Group or Staged Migration -- Client Configuration Changes for Test Group -- Test Group Mail Flow -- E-mail Migration -- Exchange Server - Mailbox changes -- Step 7: Set Mail Flow -- Cutover Migration.
Simple Coexistence -- Coexistence E-mail Flow -- Step 8: Configure Desktop and Mobile devices -- Configure desktop services -- Mobile Device Configuration -- Step 9: Configure External Devices -- Step 10: Cleanup -- Final Check List -- DNS Trouble Shooting -- Onboarding Users -- Bulk Loading Users through DirSync -- Manually Bulk-Loading Users -- Onboarding E-mail -- PST Mail Migration to Office 365 -- Export Outlook 2010 or 2013 Mailbox Information -- Import Outlook 2010 or 2013 Mailbox Information -- Third Party tool - Migration Wiz -- Office 365 Migration Tool -- Outlook Manual Configuration -- Step1: Run the PowerShell command to retrieve the ExchangeGuid -- Step 2: Configuration of Outlook -- Reference Links -- Next steps -- Chapter 5: SharePoint Administration Guide -- SharePoint Administration Chapter Structure -- Introduction to Office 365 SharePoint -- What is SharePoint? -- What is SharePoint Not? -- SharePoint Definitions -- SharePoint Planning, Governance, and Initial Setup -- Governance -- SharePoint Administrators -- Site Collection Administrator Permissions -- Building Your SharePoint Structure -- Design Your Site and Security Structure -- Initial Site Collection: Top-Level Site -- Gear Icon Options -- Site Settings -- Site Settings: The Subsite List -- Site Settings: The Full List -- Site Contents -- Create the Site Structure Defined Above -- Step 1: Create the Subsite Procedures -- Site Settings: Navigation -- Step 2: Edit Top Level Navigation -- Step 3: Edit Subsite Navigation for Procedures -- Step 4: Create the Subsite Operations -- Step 5: Edit Subsite Navigation for Operations -- Step 6: Add a Sub-Subsite Turnover -- Step 7: Edit Sub-Subsite Navigation for Operations/Turnover -- Step 8: Verify Your Structure -- SharePoint Permissions and Groups -- Permissions Basics and Groups -- Permissions Inheritance.
The Two Sides of Permissions: Sites and Groups -- Permissions: Site Permissions -- Icon 2: Grant Permissions -- Icon 3: Create Group -- Icon 4: Edit User Permissions for Existing Group -- Icon 5: Remove User Permissions -- Icon 6: Check Permissions -- Link 7: Manage Permission Levels -- Link 8: Manage Access Request Settings -- Link 9: Manage Site Collection Administrators -- Permissions: People and Groups -- New: Add Users -- Actions: E-Mail Users -- Actions: Call/Message Selected Users -- Actions: Remove Users from Group -- Settings: Group Settings -- Settings: View Group Permissions -- Settings: Make Default Group -- Settings: List Settings -- Set Top Level Permissions to Read Only -- Set Document Library Permissions -- Set a Document's Permissions -- Setting Permissions for Your Company Example -- Stop Inheriting Permissions -- Check Company Permissions -- Site Editing -- Edit Your Site Page -- Add an App -- Edit Links: Edit the Top link Bar -- Edit Links: Edit the Quick Links Bar -- Create a Project Site -- Step 1: Sign On to Your SharePoint Site -- Step 2: Navigate to "Parent" of Where You Want to Create Your Project Site -- Step 3: Create a Project Subsite -- Step 4: Alter Your Site -- Step 5: Save Your Project Site Template -- Step 6: Clean Up Your Site and Add Apps as Appropriate -- Step 7: Set Permissions -- Step 8: Using Your Project Site -- Using Project E-mail -- Uploading and Creating

Documents -- Add Tasks and Task Management -- Add Calendar Entries -- One Note Notebook -- Start a Newsfeed Conversation -- Share Your Project Site -- Sync Your Site with SkyDrive Pro -- SharePoint Admin Center -- SharePoint Admin Center -- SharePoint Admin Center Site Collections Ribbon -- Icon 1: New -- Icon 2: Delete -- Icon 3: Properties -- Icon 4: Owners -- Icon 5: Sharing (External Sharing) -- Icon 6: Storage Quota -- Icon 7: Server Resource Quota. Icon 8: Upgrade.

Sommario/riassunto

Written for the IT professional and business owner, this book provides the business and technical insight necessary to migrate your business to the cloud using Microsoft Office 365. This is a practical look at cloud migration and the use of different technologies to support that migration. Numerous examples of cloud migration with technical migration details are included. Cloud technology is a tremendous opportunity for an organization to reduce IT costs, and to improve productivity with increased access, simpler administration and improved services. Those businesses that embrace the advantages of the cloud will receive huge rewards in productivity and lower total cost of ownership over those businesses that choose to ignore it. The challenge for those charged with implementing Microsoft Office 365 is to leverage these advantages with the minimal disruption of their organization. This book provides practical help in moving your business to the Cloud and covers the planning, migration and the follow on management of the Office 365 Cloud services.
