| Sommario/riassunto      | "Worthwhile collection addresses women's integration into Mexican society and role in national modernization process. The 12 works are divided into three sections examining identity, work, and politics. Of particular interest are Brigida Garcia and Orlandina de Oliveira's profile of women's labor market participation and Alejandra Massolo's essay on women and urban policy"--Handbook of Latin American Studies, v. 57. |
