

1. Record Nr.	UNINA9910456158703321
Autore	Niles Susan A
Titolo	The shape of Inca history [[electronic resource] ] : narrative and architecture in an Andean empire / / Susan A. Niles
Pubbl/distr/stampa	Iowa City, : University of Iowa Press, c1999
ISBN	1-58729-294-7
Descrizione fisica	1 online resource (361 p.)
Disciplina	985/.37
Soggetti	Inca architecture - Peru - Yucay Region Incas - Peru - Yucay Region - Historiography Incas - Peru - Yucay Region - Kings and rulers Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [315]-325) and index.
Nota di contenuto	Contents; Acknowledgments; A Note on the Orthography and Translation; A Note on the Illustrations; Introduction; 1. Genre and Context in Inca Historical Narratives; 2. Structuring Remembered History; 3. Making History Visible; 4. Huayna Capac's History; 5. Huayna Capac's Royal Estate; 6. The Architecture on the Estate; 7. The Agricultural Works on the Estate; 8. Huayna Capac's Built Legacy; 9. Inca Architecture in Historical Context; Notes; Glossary; Bibliography; Index
Sommario/riassunto	In The Shape of Inca History, Susan Niles considers the ways in which the Inca concept of history informed their narratives, rituals, and architecture. Using sixteenth-century chronicles of Inca culture, legal documents from the first generation of conquest, and field investigation of architectural remains, she strategically explores the interplay of oral and written histories with the architectural record and provides a new and exciting understanding of the lives of the royal families on the eve of conquest. Niles focuses on the life of Huayna Capac, the Inca king w

Nota di contenuto	<p>Contents; Preface and Acknowledgements; Introduction - Part I: The Creatures; Introduction - Part II: The Context; Ants (Hymenoptera: Formicidae); Bed Bugs (Hemiptera: Cimicidae); Bees and Wasps (Hymenoptera: Apidae, Vespidae and Others); Beetles (Coleoptera: Meloidae, Oedemeridae, Staphylinidae and Others); Biting Midges (Diptera: Ceratopogonidae); Black Flies (Diptera: Simuliidae); Blow Flies and Screw-worm Flies (Diptera: Calliphoridae); Butterflies and Moths (Lepidoptera); Centipedes (Scolopendromorpha: Scolopendridae, Scolopocryptopidae and Cryptopidae)</p> <p>Cockroaches (Blattodea: Blattidae, Blatellidae and Blaberidae)Eye Flies (Diptera: Chloropidae and Drosophilidae); Fleas (Siphonaptera); Flesh Flies (Diptera: Sarcophagidae); Horn Flies (Diptera: Muscidae, Haematobia); Horse Flies (Diptera: Tabanidae); House Flies and Other Non-biting Flies (Diptera: Muscidae and Fanniidae); Human Bot Fly (Torsalo)/New World Skin Bot Flies (Diptera: Oestridae: Cuterebrinae); Keds and Louse Flies (Diptera: Hippoboscidae); Kissing Bugs (Hemiptera: Reduviidae); Lice (Chewing) (Phthiraptera: Amblycera and Ischnocera); Lice (Sucking) (Phthiraptera: Anoplura)</p> <p>Millipedes (Polydesmida and Spirobolida)Mites (Arachnida: Acari); Mosquitoes (Diptera: Culicidae); Nasal Bot Flies (Diptera: Oestridae, Oestrinae); Non-biting Midges (Diptera: Chironomidae); Sand Flies (Diptera: Psychodidae, Phlebotominae); Scorpions (Arachnida: Scorpiones); Spiders (Arachnida: Araneae); Stable Flies (Diptera: Muscidae, Stomoxys); Stomach Bot Flies (Diptera: Oestridae, Gasterophilinae); Ticks (Hard) (Acari: Ixodidae); Ticks (Soft) (Acari: Argasidae); Tsetse Flies (Diptera: Glossinidae); Tumbu Flies (Diptera: Calliphoridae)</p> <p>Warble Flies/Old World Skin Bot Flies (Diptera: Oestridae: Hypodermatinae)Index; A; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; V; W; X; Y; Z</p>
Sommario/riassunto	<p>Arthropod transmitted infections continue to be a front-line issue in all regions of the world. Understanding the insects that transmit diseases, the mechanisms of infection and the resulting diseases is vital to doctors, veterinarians, public health workers and disease control agencies. This major reference examines the biology, classification and control of arthropods that cause disease in animals and humans. The morphology, taxonomy and phylogeny of fleas, flies, lice, mites, midges, mosquitoes and ticks are described, with descriptions of their medical and veterinary significance, diseases</p>

3. Record Nr.	UNINA9910298081903321
Titolo	Handbook of Executive Functioning // edited by Sam Goldstein, Jack A. Naglieri
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2014
ISBN	1-4614-8106-6
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (565 p.)
Disciplina	150 155 155.4 361.3
Soggetti	Developmental psychology Assessment Psychiatry Neurobiology Medical rehabilitation Social service Developmental Psychology Assessment, Testing and Evaluation Rehabilitation Medicine Social Work Handbooks and manuals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa

Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface -- SECTION I: CONCEPTUALIZATIONS OF EXECUTIVE FUNCTIONING -- Chapter 1. Introduction: A History of Executive Functioning as a Theoretical and Clinical Construct -- Chapter 2. The Physiology of Executive Functioning -- Chapter 3. The Frontal Lobes and Executive Functioning -- Chapter 4. The Development of Hot and Cool Executive Function in Childhood and Adolescence: Are We Getting Warmer? -- SECTION II: PRACTICAL IMPLICATIONS -- Chapter 5. A Review of the Use of Executive Function Tasks in Externalizing and Internalizing Disorders -- Chapter 6. The Neuropsychology of

Executive Functioning and the DSM-V -- Chapter 7. Executive Functioning Theory and ADHD -- Chapter 8. Executive Functioning Theory and Autism -- Chapter 9. Executive Functioning as a Mediator of Age Related Cognitive Decline in Adults -- SECTION III: ASSESSMENT OF EXECUTIVE FUNCTIONING -- Chapter 10. Assessment of Executive Function Using Rating Scales: Psychometric Considerations -- Chapter 11. The Cambridge Neuropsychological Test Automated Battery in the Assessment of Executive Functioning -- Chapter 12. The Assessment of Executive Functioning Using the Cognitive Assessment System -- Second Edition -- Chapter 13. The Assessment of Executive Functioning Using the Delis-Kaplan Executive Functions System (D-KEFS) -- Chapter 14. Using the Comprehensive Executive Function Inventory (CEFI) to Assess Executive Function: From Theory to Application -- Chapter 15. The Assessment of Executive Functioning Using the Barkley Deficits in Executive Functioning Scales -- Chapter 16. Assessment of Executive Functioning with the Test of Verbal Conceptualization and Fluency (TVCF) -- Chapter 17. Examining Executive Functioning Using the Behavior Assessment System for Children (BASC) -- Chapter 18. The Assessment of Executive Functioning Using the Behavior Rating Inventory of Executive Functioning (BRIEF) -- Chapter 19. The Assessment of Executive Functioning Using Tasks of Executive Control -- Chapter 20. The Assessment of Executive Functioning Using the Childhood Executive Functioning Inventory (CHEXI) -- Chapter 21. The Assessment of Executive Functioning Using the Delis Rating of Executive Functions (D-REF) -- Chapter 22. Cross Battery Approach to the Assessment of Executive Functioning -- SECTION IV: INTERVENTIONS RELATED TO EXECUTIVE FUNCTIONING -- Chapter 23. Treatment Integrity in Interventions that Target Executive Function -- Chapter 24. Interventions to Promote Executive Development in Children and Adolescents -- Chapter 25. Teaching Executive Functioning Processes: Promoting Metacognition, Strategy Use, and Effort -- Chapter 26. Working Memory Training and Cogmed to Enhance Executive Functioning -- Chapter 27. Supporting and Strengthening Working Memory in the Classroom to Enhance Executive Functioning -- Chapter 28. Building Executive Functioning in Children Through Problem Solving -- Chapter 29. Consulting with Teachers to Improve Student's Executive Functioning.

---

## Sommario/riassunto

Planning. Attention. Memory. Self-regulation. These and other core cognitive and behavioral operations of daily life comprise what we know as executive functioning (EF). But despite all we know, the concept has engendered multiple, often conflicting definitions, and its components are sometimes loosely defined and poorly understood. The Handbook of Executive Functioning cuts through the confusion, analyzing both the whole and its parts in comprehensive, practical detail for scholar and clinician alike. Background chapters examine influential models of EF, tour the brain geography of the executive system, and pose salient developmental questions. A section on practical implications relates early deficits in executive functioning to ADD and other disorders in children, and considers autism and later-life dementias from an EF standpoint. Further chapters weigh the merits of widely used instruments for assessing executive functioning and review interventions for its enhancement, with special emphasis on children and adolescents. Featured in the Handbook: The development of hot and cool executive function in childhood and adolescence. A review of the use of executive function tasks in externalizing and internalizing disorders. Executive functioning as a mediator of age-related cognitive decline in adults. Treatment integrity in interventions

that target executive function. Supporting and strengthening working memory in the classroom to enhance executive functioning. The Handbook of Executive Functioning is an essential resource for researchers, scientist-practitioners, and graduate students in clinical child, school, and educational psychology; child and adolescent psychiatry; neurobiology; developmental psychology; rehabilitation medicine/therapy; and social work.
