Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (XX, 1558 p. 303 illus., 188 illus. in color.)
Disciplina	333.5068
Soggetti	Real estate management Building—Superintendence Construction industry—Management Construction superintendence Real Estate Management Construction Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Building Information Modelling - Application -- Sustainable Policies -- Real Estate Market -- Project, Building Performance -- Knowledge Management -- Urban Renewal.- Carbon Emission in Construction -- Big Data -- Energy Consumption in China -- Housing Price & Research Trend in the Real Estate Sector -- Housing Affordability & Building Project Performance -- Partnership in Construction -- Building Technology & Project Management -- Cloud Technology & Geographic Information System -- Sustainable Construction Materials & Design -- Construction Waste Management -- Housing for the Aging Group & the Group with Special Needs -- Construction Contract & Procurement -- Urbanization - Social Impacts -- Building Information Modelling -- Carbon Footprint in China -- Construction Safety I -- Human Resources Management. Sustainable Construction -- Urbanization -- Construction Procurement -- Sustainable Industry -- Infrastructure Project Management I -- Construction Automation -- Risk Management -- Construction Enterprise Management -- Land Settlement -- Construction Safety II -- Performance Evaluation &

Enhancement -- Sustainable Development -- Construction Health & Safety -- Infrastructure Project Management II -- Real Estate & Construction Education and Industrial Performance -- Conservation & Urban Planning.

Sommario/riassunto

This book presents the proceedings of CRIOCM_2016, 21st International Conference on Advancement of Construction Management and Real Estate, sharing the latest developments in real estate and construction management around the globe. The conference was organized by the Chinese Research Institute of Construction Management (CRIOCM) working in close collaboration with the University of Hong Kong. Written by international academics and professionals, the proceedings discuss the latest achievements, research findings and advances in frontier disciplines in the field of construction management and real estate. Covering a wide range of topics, including building information modelling, big data, geographic information systems, housing policies, management of infrastructure projects, occupational health and safety, real estate finance and economics, urban planning, and sustainability, the discussions provide valuable insights into the implementation of advanced construction project management and the real estate market in China and abroad. The book is an outstanding reference resource for academics and professionals alike.
