

1. Record Nr.	UNINA9910298302503321
Autore	Lim T. K
Titolo	Edible medicinal and non-medicinal plants . Volume 7 Flowers / / T.K. Lim
Pubbl/distr/stampa	Dordrecht, Netherlands : , : Springer, , 2014
ISBN	94-007-7395-1
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource : color illustrations
Collana	Gale eBooks
Disciplina	581.632
Soggetti	Medicinal plants Materia medica, Vegetable Plants, Edible
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- Amaryllidaceae -- Apocynaceae -- Asclepiadaceae -- Asparagaceae -- Asteraceae -- Balsaminaceae -- Begoniaceae -- Bignoniaceae -- Brassicaceae -- Cactaceae -- Calophyllaceae -- Caprifoliaceae -- Caryophyllaceae -- Combretaceae -- Convolvulaceae -- Costaceae -- Doryanthaceae -- Fabaceae.
Sommario/riassunto	This book continues as volume 7 of a multi-compendium on Edible Medicinal and Non-Medicinal Plants. It covers plants with edible flowers whose floral parts including the stalk and flower nectar are eaten as conventional or functional food and may provide a source of food colorant, additive or neutraceuticals. This volume covers plant species with edible flowers from families Acanthaceae to Fabaceae in a tabular form and seventy five such species from the families Amaryllidaceae, Apocynaceae, Asclepiadaceae, Asparagaceae, Asteraceae, Balsaminaceae, Begoniaceae, Bignoniaceae, Brassicaceae, Cactaceae, Calophyllaceae, Caprifoliaceae, Caryophyllaceae, Combretaceae, Convolvulaceae, Costaceae, Doryanthaceae and Fabaceae in detail. The edible species dealt with in this work include wild and underutilized crops and also common and widely grown ornamentals. To help in identification of the plant and edible parts about 200 coloured illustrations are included. As in the preceding six volumes, topics covered include: taxonomy (botanical name and synonyms); common English and vernacular names; origin

and distribution; agro-ecological requirements; edible plant parts and uses; plant botany; nutritive, medicinal and pharmacological properties with up-to-date research findings; traditional medicinal uses; other non-edible uses; and selected/cited references for further reading. This volume has separate indices for scientific and common names; and separate scientific and medical glossaries.
