

1. Record Nr.	UNINA9910298308203321
Autore	Kulchavenya Ekaterina
Titolo	Urogenital Tuberculosis: Epidemiology, Diagnosis, Therapy / / by Ekaterina Kulchavenya
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014
ISBN	3-319-04837-6
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (146 p.)
Disciplina	610 612 616.6 616.9041
Soggetti	Medical microbiology Human physiology Urology Medical Microbiology Human Physiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Epidemiology of Urogenital Tuberculosis as a part of Extrapulmonary Tuberculosis -- Classification of Urogenital Tuberculosis -- Clinical features of Urogenital Tuberculosis -- Diagnostic of Urogenital Tuberculosis -- Predisposition, Pathogenesis and Prophylaxis -- Bladder tuberculosis -- Male genital tuberculosis -- Therapy of Urogenital Tuberculosis -- Surgery of Urogenital Tuberculosis -- Acknowledgments -- References.
Sommario/riassunto	Many years ago the famous Russian TB-urologist professor Vilghelm Grund called Urogenital Tuberculosis (UGTB) a "great hoaxer", and until today UGTB is an unsolved problem. Clinical features of UGTB are flexible and variable, UGTB mimics numerous other diseases that result in delayed diagnosis. This book approaches the classification, pathogenesis, diagnostic, therapy and surgery for kidney tuberculosis as well as male genital tuberculosis. The reader will find recent data on epidemiology, many interesting history cases with illustrations and new

methods for the identification of *Mycobacterium tuberculosis*.
