

1. Record Nr.	UNINA9910298373603321
Titolo	Energy : science, policy, and the pursuit of sustainability // edited by Robert Bent, Lloyd Orr, and Randall Baker ; illustrations by William Z. Shetter
Pubbl/distr/stampa	Washington, DC, : Island Press, c2002
ISBN	9781417539093 9781597268677
Edizione	[1st ed. 2014.]
Descrizione fisica	xviii, 257 p. : ill
Altri autori (Persone)	BakerRandall BentRobert D OrrLloyd
Disciplina	333.79
Soggetti	Power resources - Environmental aspects Power resources - Social aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Institute for Advanced Study, Indiana University."
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1.Food Security -- 2: The Cost of Healthy Calories -- 3: Public Space, Public Officials, Public Policy -- 4: To Glean and Forage in the City -- 5: Maintenance and Aesthetics -- 6: Food Literacy -- Conclusion: Community Health and Prosperity.
Sommario/riassunto	Why plant trees that only provide shade when they could yield fruit as well? Why not take advantage of sunny patches at the outskirts of parking lots to grow carrots and strawberries, free for the harvesting? The idea that public land could be used creatively to grow fresh food for local citizens was beginning to gain traction when Public Produce was first published in 2009, but there were few concrete examples of action. Today, things are different: fruits and vegetables are thriving in parks, plazas, along our streets, and around our civic buildings. This revised edition profiles numerous communities and community officials that are rethinking the role of public space in cities, and how our most revered urban gathering spots might nourish both body and soul. Taking readers from inspiration to implementation, Public Produce is chock full of tantalizing images and hearty lessons for bringing agriculture back into our cities.
