

1.	Record Nr.	UNINA9910376194603321
	Autore	Vianu Victor
	Titolo	Proceedings of the thirteenth ACM SIGACT-SIGMOD-SIGART Symposium on Principles of Database Systems
	Pubbl/distr/stampa	[Place of publication not identified], : ACM, 1994
	Descrizione fisica	1 online resource (313 pages)
	Collana	ACM Conferences
	Soggetti	Engineering & Applied Sciences Computer Science
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Bibliographic Level Mode of Issuance: Monograph
2.	Record Nr.	UNINA9910298375403321
	Autore	Ghosh Tuhin
	Titolo	Natural Hazard Zonation of Bihar (India) Using Geoinformatics : A Schematic Approach / / by Tuhin Ghosh, Anirban Mukhopadhyay
	Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014
	ISBN	3-319-04438-9
	Edizione	[1st ed. 2014.]
	Descrizione fisica	1 online resource (102 p.)
	Collana	SpringerBriefs in Earth Sciences, , 2191-5369
	Disciplina	363.340954
	Soggetti	Natural disasters Geographical information systems Remote sensing Natural Hazards Geographical Information Systems/Cartography Remote Sensing/Photogrammetry
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia

Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Flood hazard in Bihar -- Drought hazard in Bihar -- Earthquake hazard in Bihar -- Thermal Heat Island effect in Bihar.
Sommario/riassunto	With increased climate variability, aggravated natural hazards in the form of extreme events are affecting the lives and livelihoods of many people. This work serves as a basis for formulating a 'preparedness plan' to ensure the effective policy formulation for planned development. Increased demand and competition with a high degree of variability have forced people to struggle in order to prosper. Good governance and innovative policy formulation are necessary to create a resilient society. This may promote a paradigm shift in the mindset on and perceptions of natural hazards and their impacts on development and growth. This new perspective will make people more concerned about minimizing the loss of life, property, and environmental damage and directly safeguard the development process. This book presents a detailed methodological approach to monitoring meteorological, hydrological, and climate change aspects to help resolve issues related to our environment, resources, and economies in the changing climate situation.
