

1. Record Nr.	UNINA9910298380503321
Titolo	Biological remediation of explosive residues / / Shree Nath Singh, editor
Pubbl/distr/stampa	Cham ; ; New York, : Springer, 2014
ISBN	3-319-01083-2
Edizione	[1st ed. 2014.]
Descrizione fisica	xiv, 737 p
Collana	Environmental science, , 1431-6250
Altri autori (Persone)	SinghShree N
Disciplina	628.52
Soggetti	Aromatic compounds - Biodegradation Explosives - Environmental aspects Hazardous waste site remediation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	From the Contents: Bioremediation of nitroglycerin: State of the science -- Biodegradation of nitrophenol compounds -- Biodegradation of hexanitrohexaazaisowurtzitane (CL-20) -- Bioremediation of 2,4,6-trinitrotoluene explosive residues -- Bioremediation of nitroexplosive waste waters.
Sommario/riassunto	Microbial degradation, Phytoremediation, Remediation, Explosive residues, Biotransformation, Mineralization, Degradative Enzymes, Degradation Pathways, Energetics, Soil contamination, Water contamination.
