

1. Record Nr.	UNINA9910798502303321
Autore	Cajee Amin
Titolo	Fordsburg fighter : the journey of an MK volunteer // Amin Cajee ; as told to Terry Bell
Pubbl/distr/stampa	[Muizenberg, South Africa] : , : Face2Face, , 2016 ©2016
ISBN	1-928346-24-3
Descrizione fisica	1 online resource (209 pages) : illustrations, map, photographs
Disciplina	322.420968
Soggetti	Political activists - South Africa Government, Resistance to - South Africa Exiles - South Africa South Africa History 1961-1994
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910298455703321
Titolo	Amniotic Membrane : Origin, Characterization and Medical Applications // edited by Ana Catarina Mamede, Maria Filomena Botelho
Pubbl/distr/stampa	Dordrecht : , : Springer Netherlands : , : Imprint : Springer, , 2015
ISBN	94-017-9975-X
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (256 p.)
Disciplina	610
Soggetti	Medicine Cell membranes Clinical biochemistry Biomedicine, general Membrane Biology Medical Biochemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1 Embryology and anatomy of placental membranes -- 2 Biochemical properties of amniotic membrane -- 3 Biophysical properties of amniotic membrane -- 4 Stem properties of amniotic membrane-derived cells -- 5 Amniotic membrane in health and disease: an obstetrical perspect -- 6 Amniotic membrane in ophthalmology -- 7 Amniotic membrane in the treatment of burns -- 8 Amniotic membrane in cancer -- 9 Amniotic membrane in oral medicine -- 10 Amniotic membrane in gynaecology -- 11 Amniotic membrane and the controlled drug release -- 12 Isolation and characterization of mesenchymal stem cells from amniotic membrane -- 13 Preservation of amniotic membrane -- 14 Ethical and legal concerns of the use of amniotic membrane -- Index.
Sommario/riassunto	This book describes the human amniotic membrane from its origin, characterization and medical applications, summarizing all the latest developments and findings related to this tissue with contributions from some of the leading researchers in the field. The book addresses issues for its preservation, separation and identification of amniotic membrane-derived cells, as well as the potential ethical issues involved

in their use. The topic of this book is particularly pertinent for clinicians and researchers involved in the research and use of this tissue.
