Autore	Novo Salvatore
Titolo	Preclinical atherosclerosis, global cardiovascular risk and cardiovascular events // editor, Salvatore Novo ; co-editors, Jawed Fareed, Evi Kalodiki, Jeanine M. Walenga
Pubbl/distr/stampa	[Saif Zone, Sharjah, U.A.E] ; ; Oak Park, IL, : Bentham Science, [2012]
Edizione	[1st ed.]
Descrizione fisica	1 online resource (72 p.)
Altri autori (Persone)	NovoSalvatore
Disciplina	617.4/12
Soggetti	Atherosclerosis - Risk factors Cardiovascular system - Diseases - Risk factors Cardiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	01 Title.pdf; 02 Cover Page; 03 REVISED eBooks End User License Agreement-Website; 04 Contents; 05 Forward, Preface and Contributors; 06 Chapter-1; 07 Chapter-2; 08 Chapter-3; 09 Chapter-4; 10 Chapter-5; 11 Chapter-6; 12 Chapter-7; 13 Chapter-8; 14 Chapter-9; 15 Chapter-10; 16 ABBREVIATIONS; 17 Index
Sommario/riassunto	This e-book outlines "preclinical atherosclerosis" and its markers in clinical practice. It gives simple but clear information for a better stratification of global cardiovascular risk. The text serves as an important guide for medical professionals involved in the management of cardiovascular patients.

Sommario/riassunto	The world has changed dramatically in recent years and so has the field of economics, but many introductory economics textbooks have remained stuck in the past. This book provides a new beginning for the study of macroeconomics, fundamentally international in its

approach and emphasizing current debates and research trends. The first, mostly descriptive half of the book presents the main macroeconomic and financial patterns observed across the world, the institutions that govern national economies and the policy options available to decision-makers. In the second half, different schools of thought in macroeconomics are introduced with an emphasis on their underlying assumptions, so that students can judge for themselves how well they apply in real-world situations. Throughout the book, the post-2007 financial crisis is a continuing focus and financial markets are fully integrated in the analysis. Policy debates are viewed in light of political economy considerations, both domestic and international. The book's style focuses on in-depth explanations and supports teaching methodologies based on critical thinking and active learning, encouraging students to relate to current discussions, especially those taking place online.
