                        Course Evaluations in Higher Education and Beyond -- How can Cloud
                        Users be Supported in Deciding on, Tracking and Controlling How their
                        Data are Used? -- Privacy Versus Collective Security: Drivers and
                        Barriers Behind a Trade-off -- Privacy in the Life-Cycle of IT Services –
                        An Investigation of Process Reference Models -- Forgetting Bits and
                        Pieces: An Exploration of the ”Right to Be Forgotten” as Implementation
                        of ”Forgetting” in Online Memory Processes -- An Advanced, Privacy-
                        Friendly Loyalty System -- Securus: From Confidentiality and Access

Requirements to Data Outsourcing Solutions -- Problem-Based Consideration of Privacy-Relevant Domain Knowledge -- Extending Signatures of Reputation -- Preserving Privacy in Production -- User Search with Knowledge Thresholds in Decentralized Online Social Networks -- An Explorative Mapping of the Belgian Social Media Marketing Value Network and Its Usage of Personal Identifiable Information -- Privacy Issues in Cross-Border Identity Management Systems: Pan-European Case -- Constructing Security: Reflections on the Margins of a Case Study of the Use of Electronic Identification in ICT Platforms in Schools -- Mobile Devices to the Identity Rescue.

Sommario/riassunto	This book contains a range of keynote papers and submitted papers presented at the 7th IFIP WG 9.2, 9.5, 9.6/11.7, 11.4, 11.6 International Summer School, held in Nijmegen, The Netherlands, in June 2013. The 13 revised full papers and 6 keynote papers included in this volume were carefully selected from a total of 30 presentations and 11 keynote talks and were subject to a two-step review process. The keynote papers cover the dramatic global changes, including legislative developments that society is facing today. Privacy and identity management are explored in specific settings, such as the corporate context, civic society, and education and using particular technologies such as cloud computing. The regular papers examine the challenges to privacy, security and identity; ways of preserving privacy; identity and identity management and the particular challenges presented by social media.
