

1. Record Nr.	UNINA9910298605803321
Autore	Ratha Satyajit
Titolo	Supercapacitor: Instrumentation, Measurement and Performance Evaluation Techniques [[electronic resource] /] / by Satyajit Ratha, Aneeya Kumar Samantara
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2018
ISBN	981-13-3086-7
Descrizione fisica	1 online resource (64 pages)
Collana	SpringerBriefs in Materials, , 2192-1091
Disciplina	621.315
Soggetti	Materials science Force and energy Engineering Energy Materials Energy Storage Energy Systems Engineering Thermodynamics, Heat and Mass Transfer Energy Efficiency
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- Instrumentation and Measurements -- Focus Points -- Summary and Conclusion -- References.
Sommario/riassunto	This book discusses the instrumentation of supercapacitors, various measurement procedures and the techniques used for the performance evaluation, to help determine the appropriate methodology for the evaluation of a supercapacitor device and also to identify the inconsistencies between the device performance and electrode material properties. As a promising energy storage option, supercapacitors need to be readied for commercialization rather than confined within the niche of academic research. This book also assists in the formulation of strict performance guidelines aided by realistic evaluation techniques, so that these devices can be made available to society through industrial production. As such it is an important read not only for academicians and researchers, but also for industry and policymakers.
