

1. Record Nr.	UNINA9910298648203321
Autore	Pisanello Daniele
Titolo	Chemistry of Foods: EU Legal and Regulatory Approaches / / by Daniele Pisanello
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014
ISBN	3-319-03434-0
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (85 p.)
Collana	Chemistry of Foods, , 2199-689X
Disciplina	664.07
Soggetti	Food—Biotechnology Nutrition Law—Europe Communication in chemistry Food Science European Law Documentation and Information in Chemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.

Sommario/riassunto

This book concerns the EU legal and regulatory framework relating to Chemicals in Food. It is divided in two parts: the first section offers an introduction to the European General Food Law with an analysis of EFSA (the European Food Safety Authority) and a description of main features of food safety-related regulations. The second part focusses on the legislation finding application concerning chemicals in food from different viewpoints, namely: - the REACH regulation; - the enzyme, flavorings and additive regulatory framework; - the matter of contamination and veterinary drugs; - the use of Food contact materials. The final chapter addresses several considerations relating to chemical hazards and crisis management, highlighting shortcomings and lessons from experience.
