Networks -- Reputation-Based Cooperation in the Clouds --
Introducing Patient and Dentist Profiling and Crowdsourcing to Improve
Trust in Dental Care Recommendation Systems -- Abstract
Accountability Language -- Trust Assessment Using Cloud Broker.

Sommario/riassunto

This book constitutes the refereed proceedings of the 8th IFIP WG 11.11 International Conference on Trust Management, IFIPTM 2014, held in Singapore, in July 2014. The 12 revised full papers and 5 short papers presented were carefully reviewed and selected from 36 submissions. In addition, the book contains one invited paper. The papers cover a wide range of topics focusing on the following main areas: trust and reputation models; privacy issues and social and behavioral models of trust; the relationship between trust and security; trust under attacks and trust in the cloud environment.
