Collana SpringerBriefs in Cybersecurity, , 2193-973X Disciplina 004.678 Soggetti Computers Law and legislation Mass media Law Computer security Legal Aspects of Computing IT Law, Media Law, Intellectual Property Systems and Data Security Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Note generali Description based upon print version of record. Nota di bibliografia Includes bibliographical references. Foreword -- Public-private collaboration: cybercrime, cybersecurity, Nota di contenuto national security -- Evolution, implementation and practice of Internet self-regulation, co-regulation and public-private collaboration. The ever increasing use of computers, networks and the Internet has Sommario/riassunto led to the need for regulation in the fields of cybercrime, cybersecurity and national security. This SpringerBrief provides insights into the development of self- and co-regulatory approaches to cybercrime and cybersecurity in the multi-stakeholder environment. It highlights the differences concerning the ecosystem of stakeholders involved in each area and covers government supported initiatives to motivate industry to adopt self-regulation. Including a review of the drawbacks of existing forms of public-private collaboration, which can be attributed to a specific area (cybercrime, cybersecurity and national security), it

provides some suggestions with regard to the way forward in self- and

co-regulation in securing cyberspace.
