

1. Record Nr.	UNINA9910299355803321
Titolo	Pervasive Computing Paradigms for Mental Health : 7th International Conference, MindCare 2018, Boston, MA, USA, January 9–10, 2018, Proceedings // edited by Pietro Cipresso, Silvia Serino, Yuri Ostrovsky, Justin T. Baker
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-030-01093-7
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (XI, 161 p. 31 illus.)
Collana	Lecture Notes of the Institute for Computer Sciences, Social Informatics and Telecommunications Engineering, , 1867-8211 ; ; 253
Disciplina	004 610.285
Soggetti	Health informatics Optical data processing Computers Application software Health Informatics Computer Imaging, Vision, Pattern Recognition and Graphics Information Systems and Communication Service Computer Appl. in Social and Behavioral Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Psychophysiological Specificity of Four Basic Emotions through Autobiographical Recall and Videos -- Extraversion affects attentive processes of personal images -- A "first look" on frailty: A scientometric analysis -- Using an Aging Simulator Suit for Modeling Visuo-Motor Limitations of Elderly Users Interacting with a Mobile Application: Feasibility Study -- The Italian Adaptation of Interpersonal Communication Competences Questionnaire -- iStim. A new portable device for interoceptive stimulation -- Learning to Use Tablets after 65: Auto-regulative Effects of a Training Program Learning into the wild: a protocol for the use of 360° video for foreign language learning The technology-enhanced Ability continuum-of-care program for

people with cognitive disorders: concept design and scenario of use --
The use of 3D body scanner in medicine and psychology: a narrative
review -- The contribution of allocentric impairments to the cognitive
decline in Alzheimer's Disease -- Emerging Technology in Positive
Psychology -- First insights into applying the Game Transfer
Phenomena framework for positive means framework for positive
means -- Engaging elderly breast cancer patients through an ehealth
intervention: a case series study -- Mindful Age and technology:
promoting quality of life in older adults with a tablet/smartphone App
-- Reading between the lines: A computational bibliometric analysis on
emotion regulation -- The ActiveAgeing Mobile App for Diabetes Self-
Management: first adherence data and analysis of patients'in-app
notes -- Tools and technologies for patients and caregivers
engagement: a qualitative analysis of health professionals' attitudes
and day-to-day practice -- Investigating Prosodic Accommodation in
Clinical Interviews with Depressed Patients.

Sommario/riassunto

This book constitutes the refereed proceedings of the 7th International
Conference on Pervasive Computing Paradigms for Mental Health,
MindCare 2018, held in Boston, MA, USA, Jin January 2018. The 19
papers presented were carefully reviewed and selected from 30
submissions and present advanced computing and communication
technologies from the use of wearable sensors and ecological virtual
environments to use of big data and machine learning techniques.
These technologies can be used to support and promote the well-being
through an objective continuous data collection and personalized .
