| Nota di contenuto | Introduction -- CLAIP facing the challenges of peace and security in the 21st century -- Úrsula Oswald Spring: History of 40 years of activities within CLAIP -- Pablo González Casanova: War and peace in the 21st century -- Francisco Rojas: Human rights and human security in Latin America -- Gilberto López y Rivas: Global state terrorism and asymmetric wars -- Luis Holder and Julio Cárdenas: Strategic concepts for training an integrated defence for peace and security in the cyberspace. |
| Sommario/riassunto | This book analyses the war against drugs, violence in streets, schools and families, and mining conflicts in Latin America. It examines the nonviolent negotiations, human rights, peacebuilding and education, explores security in cyberspace and proposes to overcome xenophobia, |

white supremacy, sexism, and homophobia, where social inequality increases injustice and violence. During the past 40 years of the Latin American Council for Peace Research (CLAIP) regional conditions have worsened. Environmental justice was crucial in the recent peace process in Colombia, but also in other countries, where indigenous people are losing their livelihood and identity. Since the end of the cold war, capitalism aggravated the life conditions of poor people. The neoliberal dismantling of the State reduced their rights and wellbeing in favour of enterprises. Youth are not only the most exposed to violence, but represent also the future for a different management of human relations and nature.
