Conclusion -- 11. References -- Appendices.
Sommario/riassunto	This book provides a comparative analysis of policy instruments responding to climate change, drought and flood in relation to agricultural producers and their communities in four case study areas: Alberta, Canada, Saskatchewan, Canada, Coquimbo, Chile, and Mendoza, Argentina. Assessed through a lens of effectiveness, and adaptive governance, instruments advancing livelihood capitals of agricultural producers and identified and recommendations made to

improve the suite of policy instruments are made.
