

1. Record Nr.	UNINA9910299495603321
Autore	Brandonisio Francesco
Titolo	Noise-shaping all-digital phase-locked loops : modeling, simulation, analysis and design // Francesco Brandonisio, Michael Peter Kennedy
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , 2014
ISBN	3-319-03659-9
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (xiii, 177 pages) : illustrations (some color)
Collana	Analog Circuits and Signal Processing, , 1872-082X
Disciplina	621.3815364
Soggetti	Phase-locked loops Electronic digital computers - Circuits - Design and construction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"ISSN: 1872-082X." "ISSN: 2197-1854 (electronic)."
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Introduction -- Phase Digitization in All-Digital PLLs -- A Unifying Framework for TDC Architectures -- Analytical Predictions of Phase Noise in ADPLLs -- Advantages of Noise Shaping and Dither -- Efficient Modeling and Simulation of Accumulator-Based ADPLLs -- Modelling and Estimating Phase Noise with Matlab.
Sommario/riassunto	This book presents a novel approach to the analysis and design of all-digital phase-locked loops (ADPLLs), technology widely used in wireless communication devices. The authors provide an overview of ADPLL architectures, time-to-digital converters (TDCs) and noise shaping. Realistic examples illustrate how to analyze and simulate phase noise in the presence of sigma-delta modulation and time-to-digital conversion. Readers will gain a deep understanding of ADPLLs and the central role played by noise-shaping. A range of ADPLL and TDC architectures are presented in unified manner. Analytical and simulation tools are discussed in detail. Matlab code is included that can be reused to design, simulate and analyze the ADPLL architectures that are presented in the book. • Discusses in detail a wide range of all-digital phase-locked loops architectures; • Presents a unified framework in which to model time-to-digital converters for ADPLLs; • Explains a procedure to predict and simulate phase noise in oscillators and ADPLLs; • Describes an efficient approach to model

Autore	Cruz Jordi
Titolo	Cocina en casa como un chef
Pubbl/distr/stampa	GRIJALBO ILUSTRADOS
ISBN	84-16449-95-3
Descrizione fisica	1 online resource (224 p.)
Soggetti	Cookbooks Creative ability in cooking
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Cocina en casa como un chef Domina los platos y las tecnicas del restaurante AnglEEI prestigioso cocinero Jordi Cruz nos ensena en este recetario a utilizar las ultimas tendencias en tecnicas culinarias, primero exponiendo la teoria y despues proponiendo hasta 75 recetas para ponerlas en practica. Para que puedas preparar en casa lo ultimo en cocina creativa. «Aqui te presento un libro escrito con el corazon, cocinado a lo largo de mis primeros 26 anos entre fuegos, cucharas y cazuelas. Congrega no solo mi pasion por la cocina, sino tambien la de muchos cocineros que me han acompanado en este camino y que ya considero familia. Quizas muchas de estas recetas te parezcan complejas para hacerlas en casa, pero tengo claro que con curiosidad y un poco de teson todo se puede lograr. Si estas paginas te sirven para descubrir alguna tecnica, algun producto nuevo o te despiertan ese gusanillo hambriento y loco llamado «cocinar», todo nuestro trabajo habra merecido el esfuerzo.» Jordi Cruz, 2016 ENGLISH</p> <p>DESCRIPTIONPrestigious and renowned chef Jordi Cruz shows us in this cookbook to use the latest trends in culinary trends, first by exposing its theories and then proposing up to 75 recipes to put into practice. This way you can prepare the latest in creative cuisine at home. "Here I</p>

present to you a book that I wrote with the heart, which has been in the oven during my first 26 years in the kitchen. It conveys not only my passion for cooking, but also that of many cooks who have accompanied me on this road and who I consider family. Perhaps some of these recipes may seem complex to make at home, but I'm certain that with some curiosity and a little bit of hard work, they can all be achieved. If these pages help you discover a new technique, some new products, or help you wake up that cook inside you, all our work will have been worth the effort." - Jordi Cruz
