management: Mechanisms and Institutions -- Sustainability as Corporate Strategy: Importance of the values of ecosystem services for the firm.

Sommario/riassunto

This book presents an eclectic mix of interesting new areas in the domain of economics, management and sustainability. Written by leading experts, it provides valuable food for thought, with essays introducing new lines of research and empirical research papers offering sound research methodology. The book not only provides answers, but also raises numerous interesting questions concerning the areas covered to whet readers' appetites to learn more. Professor Anup Sinha is a respected teacher and is a great mind with wide-ranging academic interests spanning from economics and sustainability to management. As well as in various other places in India and the US, he has taught at the Indian Institute of Management Calcutta and Presidency College (now a University) Calcutta for almost three decades. To commemorate his contributions, this festschrift presents a collection of essays that are broadly subdivided into four sections: Economic Development; Vulnerabilities and Inclusive Growth; Sustainability and Corporate Governance; and Innovation and Management.
