

1. Record Nr.	UNINA9910299673803321
Autore	Barnett Jonathan
Titolo	Ecodesign for Cities and Suburbs // by Jonathan Barnett, Larry Beasley
Pubbl/distr/stampa	Washington, DC : , : Island Press/Center for Resource Economics : , : Imprint : Island Press, , 2015
ISBN	9781610913423 1610913426 9781610914062 1610914066
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (VIII, 265 p. 132 illus.)
Disciplina	307.1/216
Soggetti	Ecology Environmental Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	1. Ecodesign: Changing the Urban Growth Model -- 2. Adapting to Climate Change and Limiting -- 3. Balancing Cars and Other Transportation -- 4. Making Cities More Livable and Environmentally Compatible -- 5. Designing and Managing the Public Realm -- 6. Implementing Ecodesign -- Art Credits -- Notes -- Index.
Sommario/riassunto	In six comprehensively illustrated chapters, the authors explain ecodesign concepts, including the importance of preserving and restoring natural systems while also adapting to climate change; minimizing congestion on highways and at airports by making development more compact, and by making it easier to walk, cycle and take trains and mass transit; crafting and managing regulations to insure better placemaking and fulfill consumer preferences, while incentivizing preferred practices; creating an inviting and environmentally responsible public realm from parks to streets to forgotten spaces; and finally how to implement these ecodesign concepts.
