Sommario/riassunto

Since the beginning of her career, Professor Sabine De Knop has been doing research within the frameworks of Cognitive and Contrastive Linguistics and has mainly distinguished herself in three research areas: Language & Cognition, Construction Grammar and Applied linguistics. This volume brings together a range of contributions which open up new perspectives on these three topics, either within one language or from a contrastive perspective. They are written by linguists who have worked with Professor Sabine De Knop at some point in her career. The papers propose new theoretical and empirical insights as well as innovative pedagogical practices in the fields of language and proficiency. Professorin Sabine De Knop arbeitet seit Beginn ihrer Karriere im Bereich der kognitiven und kontrastiven Linguistik und zeichnet sich vor allem in drei Forschungsbereichen aus: Sprache & Kognition, Konstruktionsgrammatik und Angewandte Linguistik & Fremdsprachendidaktik. Diese Festschrift besteht aus einer Reihe von Beiträgen, die sich mit einer oder mehreren Sprachen befassen und ein neues Licht auf diese drei Themen werfen. Die Beiträge stammen von SprachwissenschaftlerInnen, die im Laufe ihrer Karriere mit Professorin Sabine De Knop zusammengearbeitet haben,

und diskutieren sowohl theoretische und empirische Erkenntnisse als auch innovative pädagogische Ansätze in der Fremdsprachendidaktik.

3. Record Nr.	UNINA9910299698803321
Autore	Zhang Guangquan
Titolo	Multi-Level Decision Making : Models, Methods and Applications / / by Guangquan Zhang, Jie Lu, Ya Gao
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2015
ISBN	3-662-46059-9
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (385 p.)
Collana	Intelligent Systems Reference Library, , 1868-4394 ; ; 82
Disciplina	658.4033
Soggetti	Computational intelligence Artificial intelligence Marketing research Computational Intelligence Artificial Intelligence Market Research/Competitive Intelligence
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Part I Bi-level Decision Making -- Part II Multi-level Multi-follower Decision Making -- Part III Fuzzy Multi-level Decision Making -- Part IV Rule-set-based Bi-level Decision Making -- Part V Multi-level Decision Support Systems and Applications.
Sommario/riassunto	This monograph presents new developments in multi-level decision-making theory, technique and method in both modeling and solution issues. It especially presents how a decision support system can support managers in reaching a solution to a multi-level decision problem in practice. This monograph combines decision theories, methods, algorithms and applications effectively. It discusses in detail the models and solution algorithms of each issue of bi-level and tri-level decision-making, such as multi-leaders, multi-followers, multi-objectives, rule-set-based, and fuzzy parameters. Potential readers

include organizational managers and practicing professionals, who can use the methods and software provided to solve their real decision problems; PhD students and researchers in the areas of bi-level and multi-level decision-making and decision support systems; students at an advanced undergraduate, master's level in information systems, business administration, or the application of computer science. .
