

1. Record Nr.	UNINA9910299741303321
Titolo	Innovative management in information and production // Junzo Watada, Bing Xu, Berlin Wu, editors
Pubbl/distr/stampa	New York, : Springer, c2014
ISBN	1-4614-4857-3
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (xii, 389 pages) : illustrations (some color), portraits
Collana	Gale eBooks
Altri autori (Persone)	WatadaJ (Junzo) XuBing WuBerlin
Disciplina	658.5
Soggetti	Production management - Data processing Business logistics - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	On Uncertainty Analysis Using Random Sets in Science and Engineering -- A Simulation Study of Estimator for the Stable Index -- A DNA Computing-based Clustering Approach to the Selection of the Best Suitable Project -- Overcome the Sort Problem of Low Discrimination by Interval Fuzzy Number -- Beyond Mars and Venus: An Examination of Gender Differences in Academic Performance of High School Students -- Evaluating Co-movements with the Total Value of Import and Export with Exchange Rate in Yunnan Province -- Alliance Capability, Innovative Activity and Evolution -- Information Technology and Communication in High Schools in Vietnam -- Analytical Evaluation of Learning Experiences on Problem-solving Efficacy of Vietnamese College Student -- Analysis of Zhejiang Business Fluctuations with Dynamic Stochastic General Equilibrium Model -- All Work and No Play Makes Jack a Dull Leader? Impact Evaluation with Leisure Activities and Management Performance for the School Leaders -- Instructors' Perceptions of Using Student Ratings for Improving Teaching Quality -- Determinant of Labor Income with Policy and Institutional Factors -- Dynamic Copula-based GARCH Model Analysis China outbound Tourism Demand -- E-retail Market Characteristics, Evidence from Comparisons with USA, UK, India and China -- Enterprise Scale and Tax Burden? Empirical Research on Chinese Enterprises -- Analysis of

Value-added Process for a Logistics System in Manufacturing Business -- A Case Study of Yurun Food Company -- Profit Distribution Based on Producer Service Outsourcing Value Chain -- Enlightenment of International Experience in the "Green Economy" Transformation for Developing Countries -- Effects of Globalization and Necessity of Vietnamese Educational Management for Integration into the World -- A New Approach for Predicting and Simulating Inflation Expectations in China -- Evaluating City Leisure Index with Soft Computing Methods -- Empirics with Inequity Distribution for Elementary School Resource -- The Information Efficiency of Stock Markets -- Fuzzy Decision Process in Parental School Choice -- A Study on Internet Entrepreneurship based on the Long Tail Theory -- Fuzzy Decision System for Course Demand-Supply Management in Community College -- Modeling and Forecasting the Textiles Price Index Using Nonparametric Path Design -- On Effectiveness Assessment of Promoting the Digital Learning Policy -- The Application and Test on Distance Decay Theory of tourism -- The Design Model of Plant Service Products Based on Value Chain -- The Application of Fuzzy Interval Correlation Evaluating the Relationship between Transportation Engineering and Air Pollution -- On Efficiency of Time Management for School Leaders with Fuzzy Data -- Parents and Teachers Communication: A Case Study in Vietnam -- Pricing the American Options from the Viewpoints of Traders -- Research of Decision Variables of Tax Revenue based on Nonparametric Selection Approach -- Structure Correlation Between Knowledge Oriented Culture, Knowledge Sharing, and Innovative Management at Junior High Schools -- What Determines the Medical Expenses in China? -- Making Profit in Stock Investment Before XD Dates by Using Genetic Algorithm -- Construction of Networking Game for Addressing Social Isolation in a Super-Aging Society -- Game-Based Strategy Development for Hotel Yield Management -- Approximations of Fuzzy Numbers by General Trapezoidal Fuzzy Numbers.

Sommario/riassunto

Innovative Management in Information and Production is based on the proceedings of the Third International Symposium on Innovative Management, Information and Production. This symposium is held by International Society of Management Engineers. The symposium took place on October 8-10, in Ho Chi Minh City, Vietnam. This book examines recent innovative management of information and productions such as digital collection management and operations planning, scheduling and control.
