

1. Record Nr.	UNINA9910299757603321
Autore	Hasan Syed Faraz
Titolo	Emerging Trends in Communication Networks // by Syed Faraz Hasan
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014
ISBN	3-319-07389-3
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (87 p.)
Collana	SpringerBriefs in Electrical and Computer Engineering, , 2191-8112
Disciplina	004.6
Soggetti	Electrical engineering Computer organization Communications Engineering, Networks Computer Systems Organization and Communication Networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- IPv6 Networks -- Software-defined Networking -- Opportunistic Networking -- LTE Networks -- Communication Technology -- Executive Summary.
Sommario/riassunto	This book covers the state of the art in communication networks with the help of illustrative diagrams and recent references published in reputed journals and magazines. The book gives readers a glimpse into the next generation of communication networks. It explores topics that are currently in the research phase and/or are expected to be deployed in recent future such as LTE networks and IPv6 networks. This book is written for students/researchers who wish to come up to date with the recent trends in telecommunications.
