1.	Record Nr.	UNINA9910299780703321
	Autore	De los Reyes Juan Carlos
	Titolo	Numerical PDE-constrained optimization [[electronic resource] /] / by Juan Carlos De los Reyes
	Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
	ISBN	3-319-13395-0
	Edizione	[1st ed. 2015.]
	Descrizione fisica	1 online resource (129 p.)
	Collana	SpringerBriefs in Optimization, , 2190-8354
	Disciplina	510 511/.8 515.353 518 519.6
	Soggetti	Mathematical optimization Partial differential equations Numerical analysis Optimization Partial Differential Equations Numerical Analysis
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Introduction -- Basic Theory of Partial Differential Equations and Their Discretization -- Theory of PDE-constrained Optimization -- Numerical Optimization Methods -- Box-constrained Problems -- Nonsmooth PDE-constrained Optimization.
	Sommario/riassunto	This book introduces, in an accessible way, the basic elements of Numerical PDE-Constrained Optimization, from the derivation of optimality conditions to the design of solution algorithms. Numerical optimization methods in function-spaces and their application to PDE-constrained problems are carefully presented. The developed results are illustrated with several examples, including linear and nonlinear ones. In addition, MATLAB codes, for representative problems, are included. Furthermore, recent results in the emerging field of

nonsmooth numerical PDE constrained optimization are also covered. The book provides an overview on the derivation of optimality conditions and on some solution algorithms for problems involving bound constraints, state-constraints, sparse cost functionals and variational inequality constraints.
