Sommario/riassunto	The book gives a detailed and final account of what happened on 1 October 1965 in Jakarta, Indonesia. Six anti-communist Army generals were kidnapped and then murdered. Mid-level officers were involved, as well as the leadership of the Indonesian Communist Party, PKI. Apparent aim was to move the country to the left. The plot failed due to swift action of major-general Suharto, the later President, until then completely unknown even to the CIA. The coup turned out to be a blunder of major proportions resulting in the annihilation of the PKI as organization. When the military found out that Sukarno himself had been behind the conspiracy, he was shunted aside without bringing him to court. Instead of left the country turned right.

Sommario/riassunto

This volume of Advances in Intelligent Systems and Computing contains accepted papers presented in the main track of ECC 2015, the Second Euro-China Conference on Intelligent Data Analysis and Applications. The aim of ECC is to provide an internationally respected forum for scientific research in the broad area of intelligent data analysis, computational intelligence, signal processing, and all associated applications of AIs. The second edition of ECC was organized jointly by VSB - Technical University of Ostrava, Czech Republic, and Fujian University of Technology, Fuzhou, China. The conference, organized under the patronage of Mr. Miroslav Novak, President of the Moravian-Silesian Region, took place in late June and early July 2015 in the Campus of the VSB - Technical University of Ostrava, Czech Republic.
